

anti- SURVIVIN antibody

Product Information

Catalog No.:	FNab098261
Size:	100 μ g
Form:	liquid
Purification:	Protein A+G purification
Purity:	\geq 95% as determined by SDS-PAGE
Host:	Mouse
IsoType:	IgG1
Storage:	PBS with 0.02% sodium azide and 50% glycerol pH 7.3 , -20 $^{\circ}$ C for 24 months (Avoid repeated freeze / thaw cycles.)

Background

This gene is a member of the inhibitor of apoptosis (IAP) gene family, which encode negative regulatory proteins that prevent apoptotic cell death. IAP family members usually contain multiple baculovirus IAP repeat (BIR) domains, but this gene encodes proteins with only a single BIR domain. The encoded proteins also lack a C-terminus RING finger domain. Gene expression is high during fetal development and in most tumors, yet low in adult tissues. Alternatively spliced transcript variants encoding distinct isoforms have been found for this gene.

Immunogen information

Immunogen:	SURVIVIN
Synonyms:	API4, Apoptosis inhibitor 4, Apoptosis inhibitor survivin, BIRC5, EPR 1, IAP4, SURVIVIN
Calculated MW:	18 kDa
Uniprot ID :	O15392

Application

Specificity:	Human; other species are not tested. Please decide the specificity by homology
Tested Application:	ELISA, WB
Recommended dilution:	WB: 1:1000-1:6000
Image:
